Springer

Pflügers Archiv · European Journal of Physiology

Founded in 1868 as „Pflügers Archiv für die gesamte Physiologie des Menschen und der Tiere“ by *E.F.W. Pflüger*. Edited by *M. Verworn*, *E. Abderhalden*, *A. Bethe*, *R. Höber*, *A. v. Muralt*, *H. Rein* et al.

Published: Vol. 1–29 (1876) Cohen und Sohn, Bonn; Vol. 30–92 (1901) E. Strauß, Bonn; Vol. 93–170 (1917) M. Hager, Bonn; since Vol. 171 (1918) Springer, Berlin.

Since 1920 Pflügers Archiv has included: „Archiv für Physiologie“ (Archiv für Anatomie und Physiologie, Physiologische Abteilung). Founded and edited by Johannes Müller, E. du Bois-Reymond, W. v. Waldeyer-Hartz et al. 1877–1914. Veit und Co., Leipzig, since 1915, Vereinigung Wissenschaftlicher Verleger, afterwards Walter de Gruyter, Berlin.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0031-6768, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Other regulations

Authors publishing in this journal can, under certain conditions, benefit from library and photocopy fees collected by VG WORT. Authors of German nationality and those resident in Germany, as well as citizens of Austria, Switzerland and member countries of the European Community, may apply to Verwertungsgesellschaft WORT, Abteilung Wissenschaft, Goethestrasse 49, D-80336 München, Germany, for detailed information.

 Thomas SG → Hepple RT
 Thorn P → Carew MA
 Tiefenbacher CP, Ebert M, Niroomand F, Batkai S, Tillmanns H, Zimmermann R, Kübler W: Inhibition of elastase improves myocardial function after repetitive ischaemia and myocardial infarction in the rat heart 563
 Tigyi G → Tigyi J
 Tigyi J, Tigyi G, Liliom K, Miledi R: Local anesthetics inhibit receptors coupled to phosphoinositide signaling in *Xenopus* oocytes 478
 Tillmanns H → Tiefenbacher CP
 Tinel H, Wehner F, Kinne RKH: Arachidonic acid as a second messenger for hypotonicity-induced calcium transients in rat IMCD cells 245
 Tinel H → Ruhfus B
 Tobler I → Deboer T
 Toselli M, Tosetti P, Taglietti V: μ and δ opioid receptor activation inhibits ω -conotoxin-sensitive calcium channels in a voltage- and time-dependent mode in the human neuroblastoma cell line SH-SY5Y 587
 Tosetti P → Toselli M
 Toyama J → Guo W
 Tse C-M → He X
 Tseng G-N → Zhou Y-Y
 Tulassay T → Dézsi L
 Tweedie D → Terracciano CMN
- Ubl JJ, Reiser G: Activity of protein kinase C is necessary for sustained thrombin-induced [Ca²⁺]_i oscillations in rat glioma cells 312
 Uhm D-Y → Lee M-Y
 Ullrich KJ, Rumrich G: Luminal transport step of *para*-aminohippurate (PAH): transport from PAH-loaded proximal tubular cells into the tubular lumen of the rat kidney in vivo 735
- Vautrin J, Kriebel ME: Giant and sub-miniature end-plate potentials 669
 Velumian AA, Zhang L, Pennefather P, Carlen PL: Reversible inhibition of *I_K*, *I_{AHP}*, *I_h* and *I_{Ca}* currents by internally applied gluconate in rat hippocampal pyramidal neurones 343
 Vogel RM → Deussen A
- Wagner S → Kürz LL
 Walls J → Brunskill NJ
 Wang H → Silva NLCL
 Wang S-W → Zhang K-M
 Warth JD, Hume JR: Re-examination of Na⁺-dependent regulation of cAMP-dependent Cl⁻ currents in the heart 597
 Watanabe M → Yamasaki F
 Wechsler AS → Zhang K-M
 Wehner F → Tinel H
 Weichert A → Ruß U
 Weight FF → Li C
 Werner R → Pfahnl A
 Wilhelm S → Nitschke R
 Willems PHGM → Baal J van
 Wolledge RC → Buschman HPJ
 Wolf K, Kurtz A: Influence of salt intake on atrial natriuretic peptide gene expression in rats 809
 Wolf K → Gess B
 Wolf K → Sandner P
 Wray D → Yusaf SP
 Wright LD → Zhang K-M
 Wu D → Mori N
- Yakehiro M, Seyama I, Narahashi T: Kinetics of grayanotoxin-evoked modification of sodium channels in squid giant axons 403
 Yamasaki F, Shinkawa T, Watanabe M, Mizota M: Uptake of human urinary trypsin inhibitor by the kidney epithelial cell line, LLC-PK₁ 9
 Yamauchi M, Matsumoto T, Ohwatari N, Kosaka M: Sweating economy by graded control in well-trained athletes 675
 Yamauchi M → Nosaka S
 Yao J-A → Zhou Y-Y
 Yasui K → Yazawa K
 Yazawa K, Kameyama A, Yasui K, Li J-M, Kameyama M: ATP regulates cardiac Ca²⁺ channel activity via a mechanism independent of protein phosphorylation 557
 Yazawa K → Kameyama A
 Yu H → Robinson RB
 Yusaf SP, Wray D, Sivaprasadarao A: Measurement of the movement of the S4 segment during the activation of a voltage-gated potassium channel 91

- Zahler S, Kupatt C, Seligmann C, Kowalski C, Becker BF, Gerlach E: Retention of leucocytes in reperfused, isolated hearts does not cause haemodynamically relevant permanent capillary plugging 713
- Zhang K-M, Hu P, Wang S-W, Wright LD, Wechsler AS, Spratt JA, Briggs FN: Fast- and slow-twitch isoforms (SERCA1 and SERCA2a) of sarcoplasmic reticulum Ca-ATPase are expressed simultaneously in chronically stimulated muscle fibers 766
- Zhang L → Velumian AA
- Zhang X → Szabó I
- Zhou X-W → Pfahnl A
- Zhou Y-Y, Yao J-A, Tseng G-N: Role of tyrosine kinase activity in cardiac slow delayed rectifier channel modulation by cell swelling 750
- Zimmermann R → Tiefenbacher CP
- Zuiderwijk M → Bajnath RB
